Infrastructure

Quality Assurance

Quality is of paramount importance to Vishgral Industries. It is the foundation that our business and reputation are built upon. We believe our quality control system is second to none in the industry. Quality always comes first, from customer design through to final production. We take every precaution to make sure every component is produced to customer requirements. Our Quality Manual and subsequent Procedures are both issued in line with our ISO 9001:2008 accreditations. All our Quality inspection instruments are calibrated at NABL approved labs.

Our long standing, loyal customer base is testimony to our competitive prices, unparalleled quality and punctual delivery. It is the policy and overall business objective of Vishgral Industries to provide services of the highest quality and in compliance with our customers specified requirements. We recognize that genuine commitment and investment in quality is essential. Vishgral Industries actively welcome visits from prospective customers.

Introduction

Incepted in 1992, Vishgral Industries, an ISO9001:2008 Certified company was founded by envisioned Technocrat - Mr. Ganesh Kolar, an Engineering graduate from University of Mysore. Vishgral Industries is a renowned manufacturer and supplier of Sheet Metal Fabricated components and assemblies for Engineering Applications.

Our featured products are Aluminium Damper Lamination, Louvered Screens, Terminal Boxes, Panels & Enclosures, Cable Tray Support Systems, Rails and Vent Covers, Guards used in Engine, Radiators, Exhaust Systems, Transmission Systems, Silencers.

Vishgral Industries has fulfilled JUST-IN-TIME and kanban system requirements of customers.

We are Green Channel supplier for Cummins, Crompton Greaves Ltd, Larsen & Toubro.

Vision

Vishgral Industries will continually grow as a national and internationally recognized leader in innovative solutions in custom metal fabrication and manufacturing opportunities.

Mission

Vishgral Industries will exceed our customer's expectations by providing reliable and cost effective solutions through strong business associations, quality product resolutions, dedicated employees, extraordinary service and safe practices.

Work Ethics

To attract and retain quality competent employees who excel in their career, demand excellence from themselves and their co-workers. Provide opportunities and give encouragement to develop and enhance their profession skills and technical experience.

Why Us?

- International Quality Standards
- Dimensional accurate products
- Competitive prices
- Ethical business policies
- Efficient support for Deliveries & Quality
